

# WE CAN TRANSPORT

**WELKER**® is the only U.S. manufacturer that provides constant pressure cylinders with Transport Canada approval.

Transport natural gas and light liquid hydrocarbon samples or calibration standards anywhere in Canada in the most reliable and respected constant pressure sample cylinders available.

Our versatile line also includes several optional mixer styles.

Get your Welker CP-2 Constant Pressure Sample Cylinder today. Contact your local Welker representative for more information.

Welker Constant Pressure Cylinders, like the CP2-150PPA model, are rated up to 1,800 PSIG (124 bar)
