

Product News

Manufacturer: GE Druck
Product: Measurement & Control Instruments
Category: Product Obsolescence - End of Support
Date: 01/01/11
Subject: Products No Longer Available/Support Life

This notice indicates the planned repair support program for the range of Druck pressure measurement and control instruments. Due to new product introductions and availability of spare parts the following timescales for continuing support are listed. All functioning instruments can still be fully calibrated.

Instrument Model	Planned end support date	Replacement Model
DPI 510 (all variants)	No repair	PACE 5000/6000 Controller
DPI 515 (all variants)	End 2015	PACE 5000/6000 Controller
DPI 520 (all variants)	End 2013	PACE 5000/6000 Controller
RUI 100/101	Limited repair to end 2011	No replacement
DPI 140 & DPI 141	Limited repair to end 2011	DPI 142/150
DPI 601 & DPI 602	No repair	DPI 620 & PV 6xx or DPI 610
DPI 603 & 605	Limited repair to end 2013	DPI 620 & PV 6xx or DPI 610
MCX & TRX	No repair	DPI 620 (MCX) or DPI 880 (TRX)
MCX-II	Limited repair to end 2013	DPI 620
TRX-II (inc. IS variants)	Limited repair to end 2013	DPI 620
MVX	No repair	DPI 620 or DPI 880
UPS & UPS-IS	No repair	UPS-II, UPS-III & UPS-III-IS
VAX-I & VAX-II	No repair	DPI 620 or DPI 880

Please be aware that part # UNO-208, Battery Pack for TRX-II-IS is no longer available. Also, planned support dates may be brought forward if currently unknown obsolescence issues arise.
