PRODUCT BULLETIN

WX64

For more than 100 years, Oldham from Industrial Scientific has specialized in safety and, more particularly, in gas and fire detection. The company offers a wide range of single gas and multi-gas portable detectors, fixed transmitters, and controllers. Our products are always application driven and solution oriented.

Oldham's WX64 64-channel controller is the pinnacle of functionality and ease of use. The WX64 can accommodate nearly any combination of 4-20mA, bridge sensor, ModBus RTU, ModBus TCP, and Wireless inputs, making it suitable for even the most complex applications.

FEATURES

- 64-Channel Controller
- 4-20mA, Bridge Sensor, ModBus RTU, ModBus TCP, Wireless
- Programmable Relays
- Dual ModBus RTU Master/Slave
- Color LCD Display
- 8 Zones Configurable

- Wireless Options (900Mhz or 2.4Ghz)
- Data Logging (Built-In SD Card)
- Security Lockout Mode
- Touch Key and Non-Intrusive Operation
- Multiple Enclosure Options
- Embedded Web Pages
- CSA Div 2 A, B, C, D (pending)

To learn more about the WX64 and its modules, contact an Oldham customer service representative. Or see the WX64 online at <u>www.oldhamgas.com</u>
